

## **Similarity Report**

### **Thesis Title – Spatiotemporal Analysis of Rainfall Erosivity and Climate Change Impact Assessment**

Name – Tapasranjan Das

Roll No. 176104014

The overall similarity index reported by Turnitin for the thesis is 48%. However, a significant portion of this similarity originates from the author's own published and preprint research work, which are outcome of this thesis.

The primary sources contributing to the similarity are as follows:

1. Das, T., Sarma, A.K. Climate change impact on rainfall erosivity factor using disaggregation model under CMIP6 shared socio-economic pathways. *Theor Appl Climatol* **156**, 381 (2025). <https://doi.org/10.1007/s00704-025-05608-7>  
**Similarity percentage – 12%**
2. Das, T., Sarma, A.K. Incorporating return period in the assessment of rainfall erosivity of India using high temporal resolution satellite precipitation product. *J Earth Syst Sci* **134**, 10 (2025). <https://doi.org/10.1007/s12040-024-02452-7>  
**Similarity percentage – 6%**
3. Tapasranjan Das, Arup Kumar Sarma. A Step towards incorporating return period in rainfall erosivity of India using high temporal resolution Satellite precipitation product, 20 November 2023, PREPRINT (Version 1) available at Research Square [<https://doi.org/10.21203/rs.3.rs-3615717/v1>]  
**Similarity percentage – 6%**

Apart from the above sources, the similarity contribution from all other individual sources is less than 1%.

After deducting the similarity arising from the author's published contributions, the net effective similarity index of the thesis is 24%.

The Turnitin report is attached below.

# 48% Overall Similarity

The combined total of all matches, including overlapping sources, for each database.

## Match Groups

-  **958 Not Cited or Quoted** 39%  
Matches with neither in-text citation nor quotation marks
-  **194 Missing Quotations** 5%  
Matches that are still very similar to source material
-  **48 Missing Citation** 4%  
Matches that have quotation marks, but no in-text citation
-  **0 Cited and Quoted** 0%  
Matches with in-text citation present, but no quotation marks

## Top Sources

- 29%  Internet sources
- 45%  Publications
- 0%  Submitted works (Student Papers)

## Integrity Flags

### 0 Integrity Flags for Review

No suspicious text manipulations found.

Our system's algorithms look deeply at a document for any inconsistencies that would set it apart from a normal submission. If we notice something strange, we flag it for you to review.

A Flag is not necessarily an indicator of a problem. However, we'd recommend you focus your attention there for further review.

### Match Groups

- **958 Not Cited or Quoted 39%**  
Matches with neither in-text citation nor quotation marks
- **194 Missing Quotations 5%**  
Matches that are still very similar to source material
- **48 Missing Citation 4%**  
Matches that have quotation marks, but no in-text citation
- **0 Cited and Quoted 0%**  
Matches with in-text citation present, but no quotation marks

### Top Sources

- 29% Internet sources
- 45% Publications
- 0% Submitted works (Student Papers)

### Top Sources

The sources with the highest number of matches within the submission. Overlapping sources will not be displayed.
